

# 3 Simple Tips for Developing Meaningful Literacy in Children

[www.think10fold.com](http://www.think10fold.com)

## Create print rich environments

Label commonly used items, toy storage bins,  
closet shelves!

**BONUS:** add a labeled picture so children  
“read” to return items!

## Make reading & writing meaningful

Create print awareness! Teach commonly  
used item sight words & praise children for  
print & vocab word recognition! The more  
interesting a topic - the more engaging!

## Include children in composing stories, songs & literature

Make songs for routine activities, write social stories to teach  
good behavior, read books that inspire imagination!
