# I AM AN AUTHOR & AN ILLUSTRATOR

[www.think10fold.com](http://www.think10fold.com)

## *Create your own book!*

- Use a **FREE** printable or *construct* your own!
- Create a collection of child made books in your library!
- Experience hands on the steps of storytelling

## *Age Appropriate Thoughts:*

*Pre-K:* Write captions for created images

*Preschoolers:*

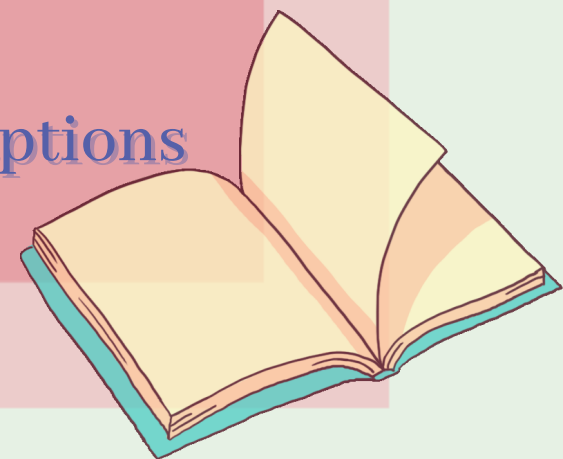

Trace letters & words, scribble writing

*Toddlers:*

Dot paint, chunky crayons, dictate captions

*Infants:*

Finger paint

# LIBRARY CARDS

[www.think10fold.com](http://www.think10fold.com)

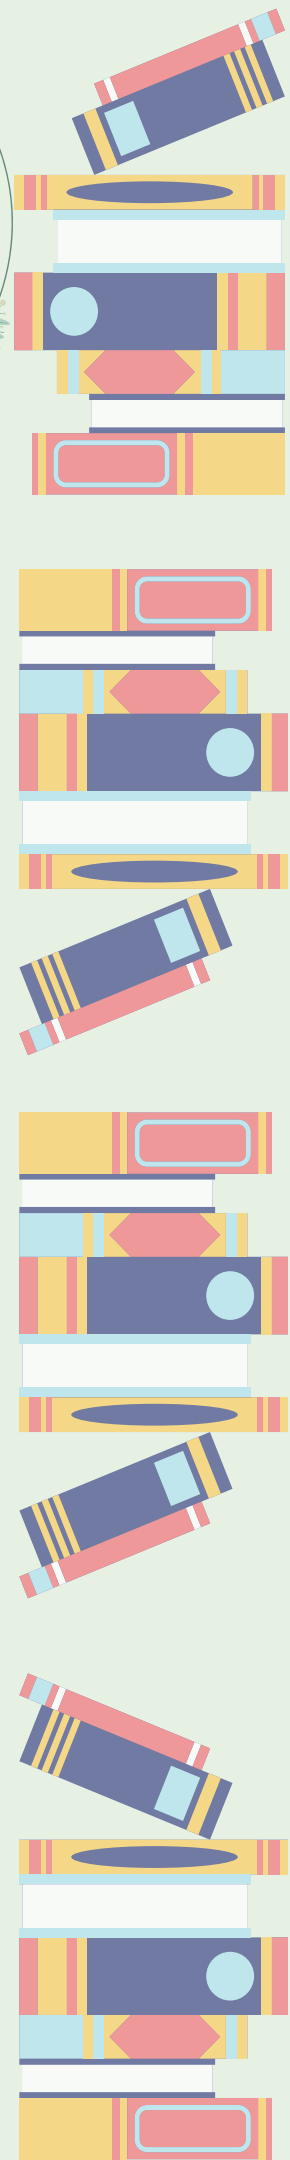

Design a set of library cards for your  
Home Library!

- Create a check out system for your books!
- Choose a name for your library, draw a logo, cut out the cards & sign your name on back!

### *BONUS ACTIVITY:*

Fasten envelopes into book covers to place checkout slips into! Find a stamp to mark the card with upon “checkout”

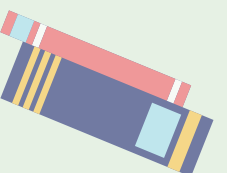

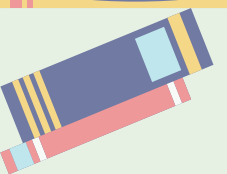

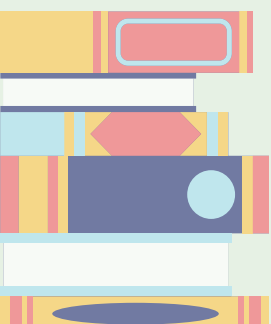

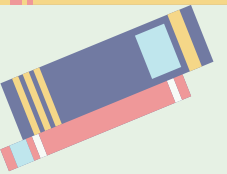

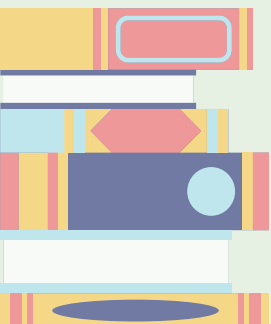

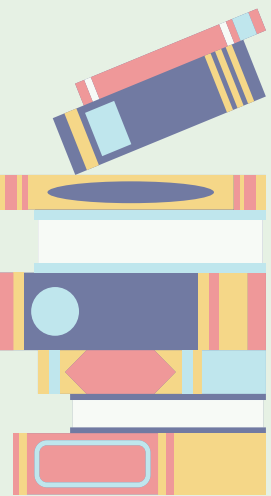

Dramatic Play Library Roles:  
...Librarian, patron, etc!

# LIBRARY VISIT

[www.think10fold.com](http://www.think10fold.com)

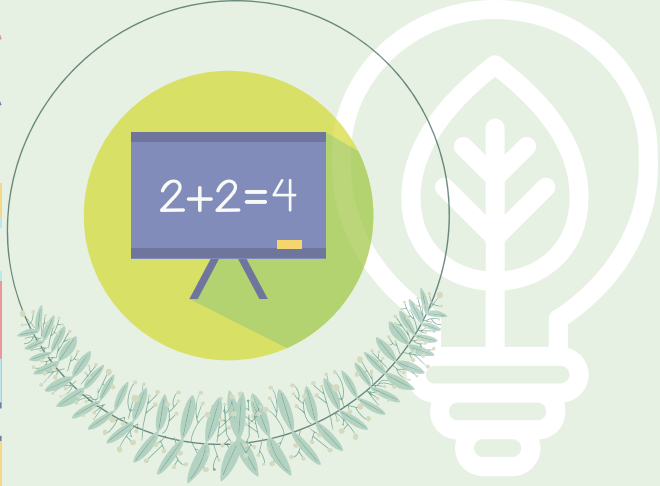

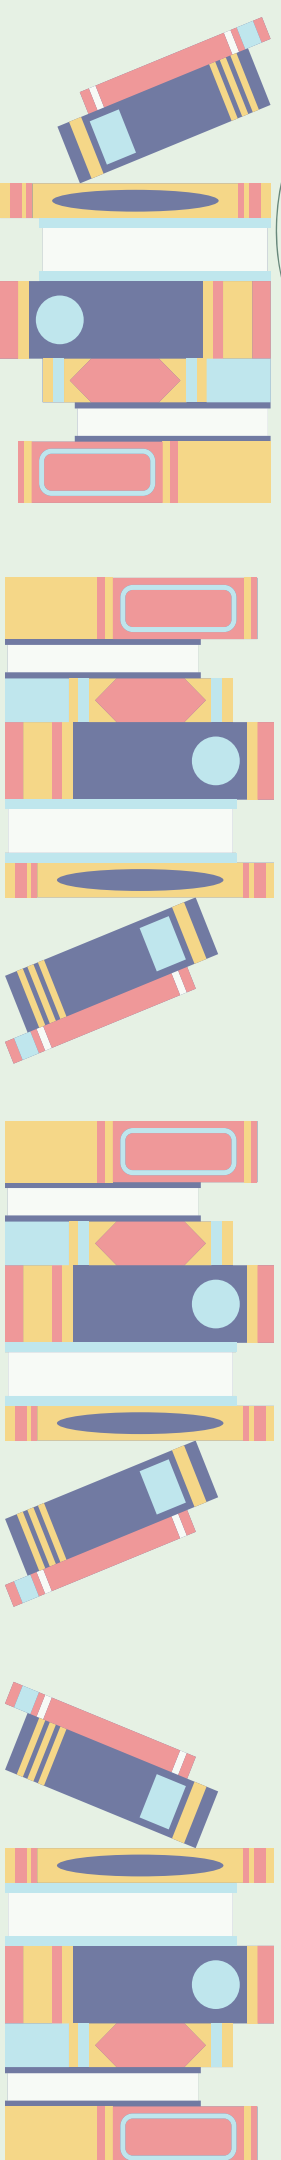

## Take an In Person or Virtual Library Trip!

(Check your local library for hours & requirements!)

Expose children to the joy of browsing  
aisles & aisles of books to share!

Get involved in children's classes, adult  
education & other great (often FREE)  
library offerings!

Pick a topic - find a book -  
learn together!

# MATHEMATICAL LITERACY

[www.think10fold.com](http://www.think10fold.com)

## Not Just Abc's...it's also 123's!

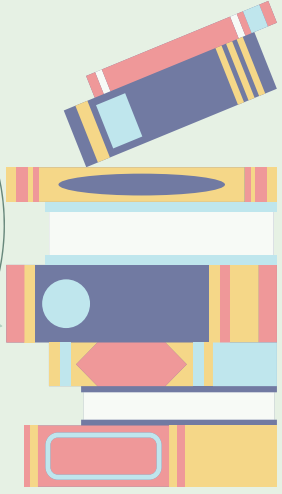

Numerical literacy provides a solid foundation for future STEAM learning!

-Provide children with experience in:

- Counting
- Patterns
- Board Games
- Telling Time
- Schedules
- iSpy # games
- & SO MUCH MORE!

# TECHNOLOGICAL LITERACY

[www.think10fold.com](http://www.think10fold.com)

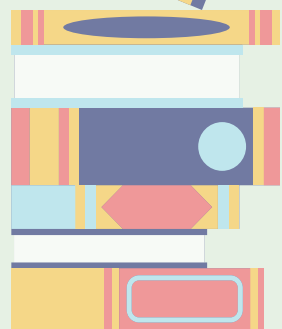

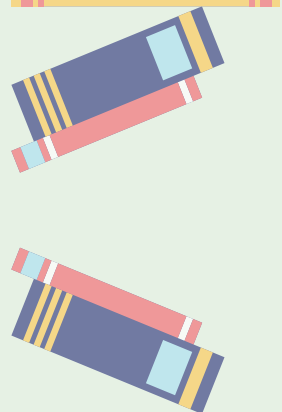

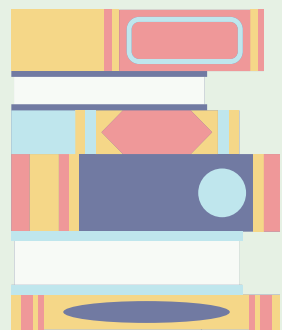

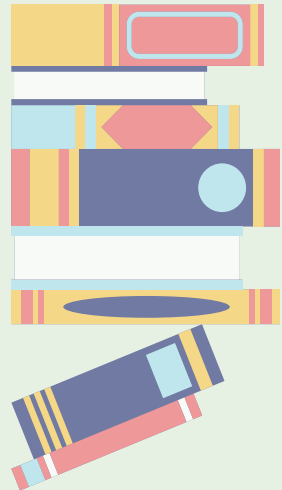

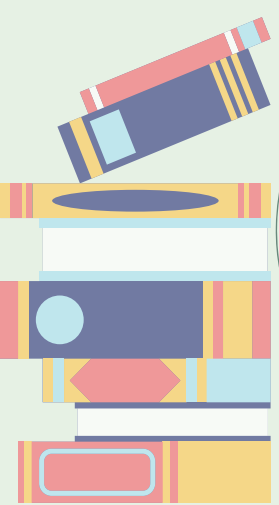

As our society *increases* technological dependency - the age threshold for Responsible Digital Citizenship *decreases*.

Many toys & supplies for young children rely on internet for function...

So we must make sure we prepare children with tools & skills to:

- safely,
  - intentionally &
  - educationally
- utilize technology to better their lives - while teaching & modeling moderation!

# ENVIRONMENTAL PRINT

[www.think10fold.com](http://www.think10fold.com)

*Illustrate an environmental literacy book!*

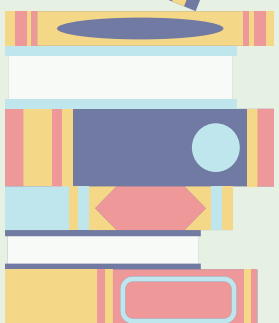

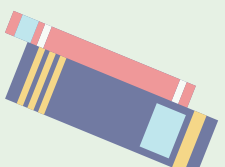

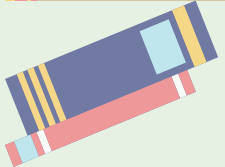

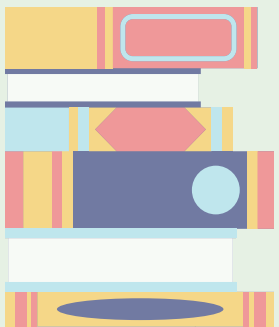

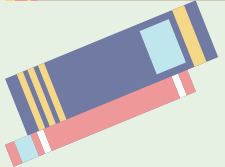

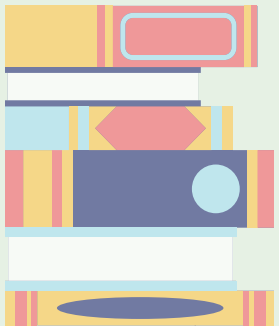

-Collect recycled magazines & newspapers...cut out logos, ads, & other print that the children recognize or see frequently...compile the cutouts into a composition or spiral notebook!

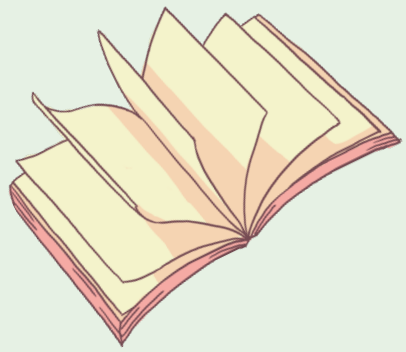

*Bonus Literacy Idea:*

-Challenge children to find one logo for each letter...& then place the cutouts in alphabetical order

*Print Rich Environments:*

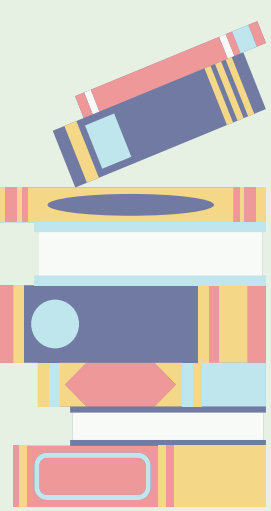

-Label frequently used items including shelves & storage bins with text & image

# AUTHOR STUDY

[www.think10fold.com](http://www.think10fold.com)

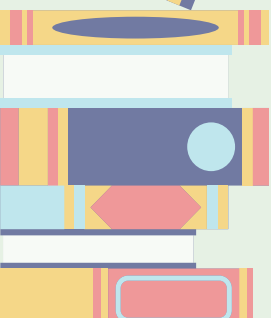

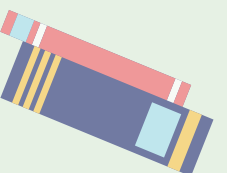

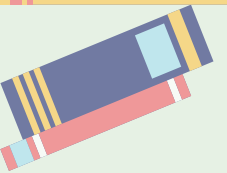

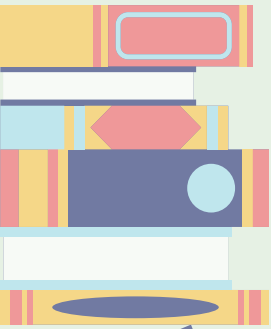

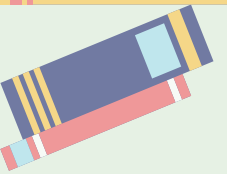

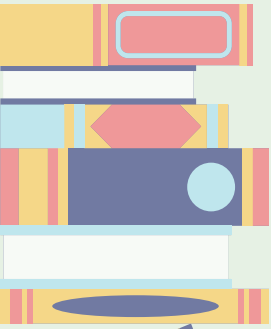

*Choose an author, character, or theme to inspire an author study!*

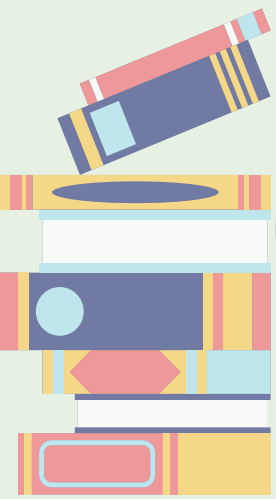

-Hit the Library, bookstore or online read aloud resources to get **READING!**

## *BONUS ACTIVITIES:*

- Find themes throughout an authors series of books
- Identify repeating characters
- Create supporting activities based on the stories!

# HOME LIBRARY

[www.think10fold.com](http://www.think10fold.com)

Research some simple DIY options for library organization systems for children's books made out of items in your home!

-Work together to sort & organize literacy materials in your new home library system!

***BONUS ACTIVITY:***

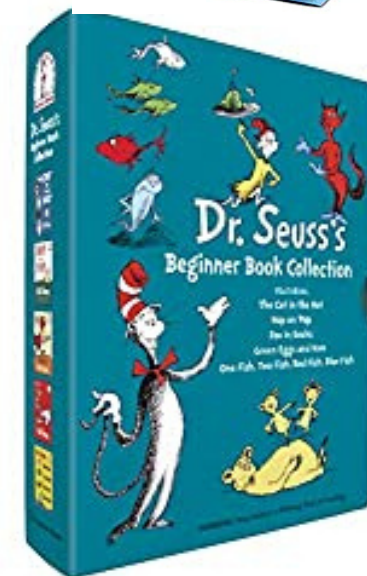

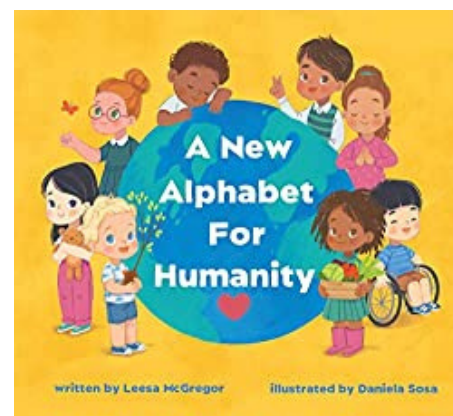

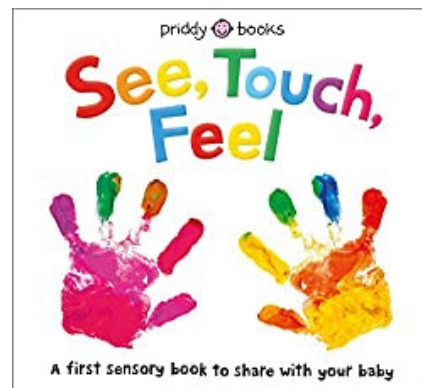

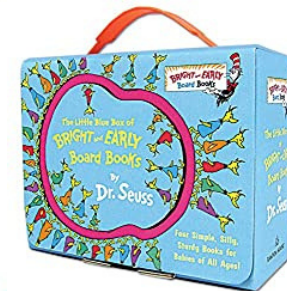

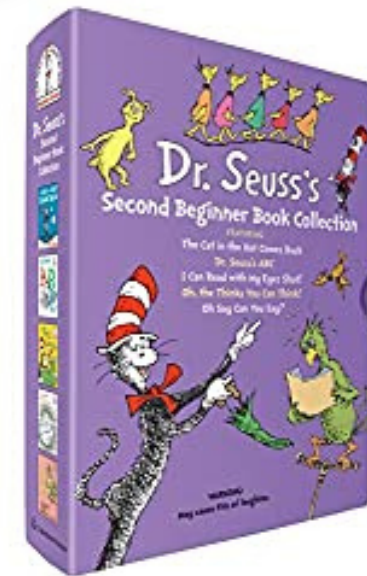

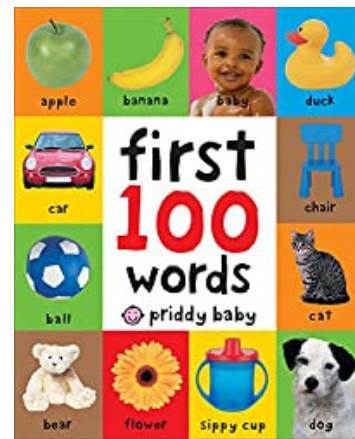

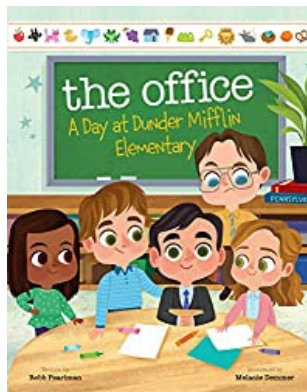

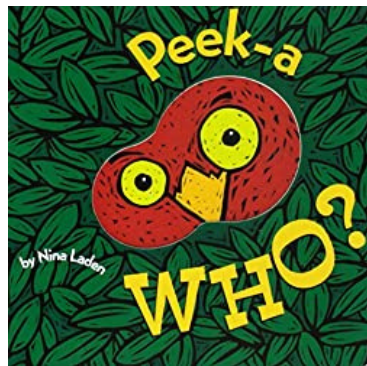

Implement a system for rotating books in your home library...consider using milk crates, recycled Amazon boxes, or other bins to label & store books by month, season, or topic!
